Dear Bill:

Just wanted to inform you that you have a very happy customer. Since your team of professionals installed your Stingray Dual Reflective System earlier this year my showroom just looks fantastic. My employees noticed very quickly what had changed and even my customers have commented on the dramatic improvement your lighting system has made on my Harley-Davidson/Buell Motorcycles. The chrome just jumps out and the factory paint just glistens under your lights. Also my parts, accessories and motorclothes look alot better under this new light. I really thought my old lighting was pretty good but WOW WHAT A DIFFERENCE !!!

The three "L s" in bussiness were: Location, Location, Location. But now I know it's Location, Lighting, Lighting.

Thanks Again,
